### **What is Restylane®?**

Restylane® is the first cosmetic dermal filler made of non-animal-based hyaluronic acid that restores volume and fullness to the skin to correct moderate to severe facial wrinkles and folds, such as the nasolabial folds. The Hyaluronic acid is a natural substance that already exists in the human body and is used to provide moisture and fullness to the skin.

The cost for Restylane® is \$500 for a 1ml syringe. The average treatment results may last approximately 6 to 8 months.

### **What is Perlane®?**

Perlane® is a cosmetic dermal filler to help restore volume and fullness to the moderate to severe facial wrinkles and folds. Perlane® comes from the same company as Restylane® but is used for the deeper injections.

The cost for Perlane is \$500 for a 1ml syringe. The average treatment results may last approximately 6 to 8 months.

### **What is Juvederm™?**

Juvederm™ plus and ultra plus is a smooth gel based filler that helps volumize and correct wrinkles and folds. What makes Juvederm™ different is the Hylacross™ technology. This creates a higher degree of cross-linking and promoting the filler to last up to 12 months.

The cost for Juvederm™ is \$450 per syringe.

### **What is Evolence®?**

Evolence® dermal filler helps treat the effects of aging by replacing the collagen you lost for natural collagen that lasts. This filler helps treat moderate to deep facial wrinkles and folds. The results can last up to 6 months. A skin test is not needed prior to treatment.

The cost for Evolence® is \$500 per syringe.

### **What is Radiesse®?**

Radiesse is a synthetic compound comprised of microspheres of calcium hydroxylapatite, combined with aqueous gel. The results may last approximately 12 months or longer.

The cost for the Radiesse 1.3 ml is \$695 per syringe and 0.3 ml is \$450 per syringe.

### **What is Eleveess™?**

Eleveess™ is a technologically advanced formulation that delivers the highest concentration of hyaluronic acid for durable results. It helps correct mild to moderate facial wrinkles and fold, such as the nasolabial folds. The results may last up to six months depending upon each individual.

The cost per syringe for Eleveess™ is \$350.

### **What is Artefill®?**

Artefill® is the first and only FDA-approved non-resorbable wrinkle filler for the correction of smile lines. It contains PMMA microspheres and purified bovine collagen that provides immediate and long lasting results. Before initial treatment is done a skin test is needed one month before due to the bovine collagen.

The cost for Artefill® 0.4 syringe is \$650 and Artefill® 0.8 syringe is \$1300. Results may last up to 5 years.
